

SS-SOL

30EK

Description

Colloidal Silica (Dispersed in Methyl ethyl ketone ; MEK)

Chemical
composition

SiO₂ , C₂H₅COCH₃

CAS No.

7631-86-9, 78-93-3

Apppearance

Translucency

Application

Reinforcing Organic Polymers, Making Catalysts, Hydrophilizing Surface, Inorganic Binder, Frictionizing Effects, Miscellaneous Optical Effects Color & Photography etc.

Specification
